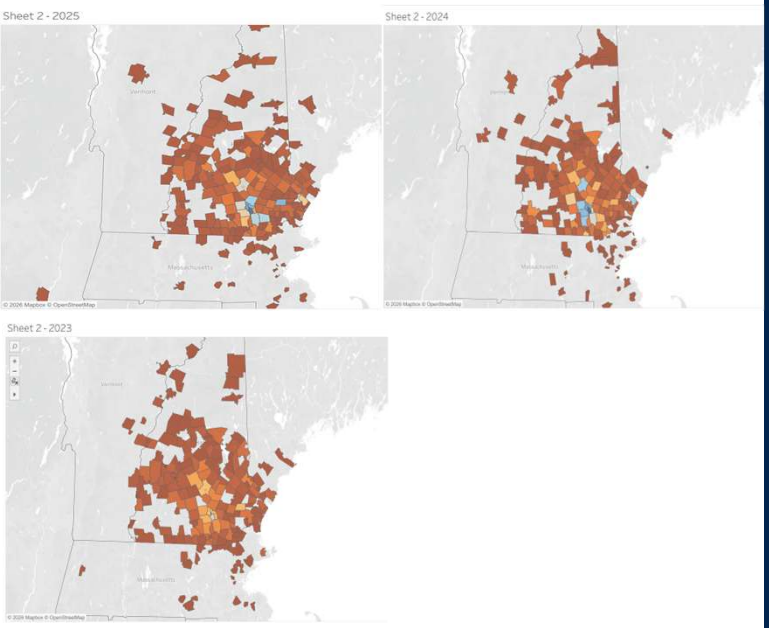
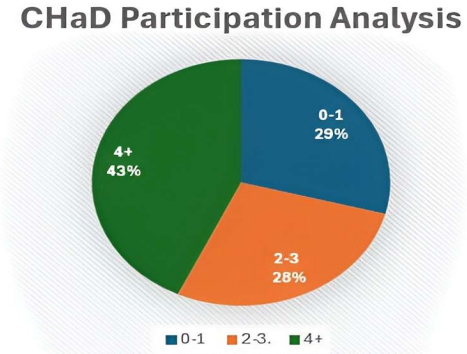
Geographic Patterns in Ticket Sales: 2023–2025 CHaD Battle of the Badges

Southern New Hampshire University

Nasib Raya, Abdallah Mubarak

What geographical gaps exist within the ticket sales data?





Data & Visuals Analysis

Manchester is the primary stronghold, consistently producing the highest number of players and ticket sales.

Geographic reach is expanding into southern New Hampshire and northern Massachusetts (Danvers, Malden, Andover)..

28% of the 2025 roster are new players, and they are the most effective at expanding CHaD's reach into new communities.

Current fundraising is limited by physical attendance, creating a geographic ceiling on ticket sales.

.

Our Recommendation

- **Invest in professional electronic streaming** to eliminate physical attendance barriers and allow supporters from anywhere to participate.
- **Expand marketing beyond New Hampshire** into the broader New England region to capitalize on new-player networks.
- **Develop a long-term digital strategy** to position CHaD as a **regional** → **national** fundraising model..
